IN.CHI.PLA: A Concrete Commitment to Environmental Sustainability

We have always considered sustainability a fundamental value, not just a goal to be achieved, but a principle that guides every aspect of our daily business. We work to create innovative and sustainable solutions that meet market needs while respecting the environment in which we live.

Another concrete action we have taken to achieve our sustainability goals is the installation of a **PHOTOVOLTAIC SYSTEM** at our production site. This decision allows us to cover a significant portion of our energy needs. Thanks to this initiative, we are able to power a large portion of our business operations with clean energy, thus contributing to a more sustainable world for future generations.

HAND WASH 500 ML

DROPS OF SOFTNESS FOR YOUR SKIN.

NEW 2026

DUBAI
RITUALS

A sensory journey through the warm and enveloping atmosphere of Dubai. Its floral fragrance blends with the sweetness of glycerin for a cleansing action that leaves hands soft and velvety.

LONDON
EDEN

The marine freshness evokes the refined balance of London gardens. The glycerin formula gently cleanses, providing immediate comfort and a clean, natural, and sophisticated scent.

NEW YORK
WOOD

An amber and rosy fragrance, elegant and metropolitan, like New York at sunset. Its creamy lather envelops the hands, cleanses thoroughly, and leaves a warm, enveloping trail on the skin.

TOKYO
FIG

A perfect balance of woody notes and the fresh and reassuring scent of fig, inspired by the purity and calm of Japanese culture. Glycerin ensures softness and nourished skin.
