

## BABY line

Our Cotton Plus - BABY line has been designed for baby daily gentle care and hygiene.

**Pure high quality cotton wool products, manufactured according to the European Pharmacopoeia and Regulation.** Bleached exclusively with hydrogen peroxide, without any optical bleaches, **hypoallergenic and dermatologically tested.** Only the best for our children!

Our **COTTON BUDS 56** are suitable for a safe and effective baby ear cleaning, their safety rim is designed to limit penetration to help protect baby's ear.

For everyday diaper changes, face and hands cleaning we propose our **BABY 60**: soft and delicate 100% cotton pads, made with hydro-entangled cotton wool which is particularly soft, resistant and fluff free. They are suitable for a gentle daily cleaning while respecting babies and children skin's natural physiological balance.

BABY 60 pads should be used simply by adding water, natural oil or baby cleanser.

Cotton Plus BABY 60 are packaged in bags with colourful images to entertain the children during diaper change.

Thanks to the **practical pre-cut** between pads final consumer can **select the size of the pad** by using one at the time or more not separated based on specific needs. The pre-cut also helps parents to easily get the pad from the bag while the baby is on the changing table.

And for parents who look for the best quality at an affordable price, we developed the **MULTICOTTON MAXI 200**: a large format of pure cotton pads supplied in a practical resealable bag with strings. A big savings to the consumers and the best care for the newborns!
