Since **1969** MartiniSPA contributes to daily well-being with **Made in Italy** qualitative body and home care products.

Thanks to the solid expertise and an internal production inspired by creativity and technological innovation, Martini is the **leader in the sponge and body care accessories segment** in Italian market.

Products are made with on a variety of different materials, from polyurethane to recycled materials, ingredients of vegetable origin like cellulose or yarns and fabrics from selected Italian or Mediterranean suppliers.

MartiniSPA pride is however the internally developed X-Pand patented production process.

Xpand gives life to **unique products** that can be enriched with **fragrant essences** and **natural active ingredients** with cosmetic properties.

**Extremely soft sponges**, able to expand in water thanks to their **superior absorbency**.

All the pluses of X-Pand:

- Cold process
- Water-based reactions
- Without the use of chemical agents and solvents harmful to the environment
- Without catalysis
- No blowing agents
- Slow process and low energy impact

**Konjac** is an Asian plant belonging to the genus *Amorphophallus*, which grows in China, Korea and Japan at high altitudes where the air is purer. It is of the **roots**, composed mainly of water, minerals and glucomannan that Konjac sponges are obtained.

Thanks to its soft and porous structure, the Konjac sponge exerts a **light exfoliation**, which gently eliminates impurities, reactivates the **microcirculation**, re-oxygenating the skin and stimulating the **skin renewal**.

**Bambù** line finds its inspiration in this versatile plant, which is a natural source of **precious minerals** and **antioxidant enzymes**. Bamboo's fast growth cycle reduces its environmental impact.

Textile products from Bambù line are **incredibly soft and pleasant**, making them particularly suitable for **sensitive skin**, and granting high moisture absorption.

The exclusive *MartiniSPA Xpand process* allows produce sponges enriched by bamboo extract, also known for its **hydrating, toning and anti-irritant properties**.
