### The original taste of typical ITALIAN CUISINE

**T**he mission of Antico Casale dei Conti is to provide a full range of top-quality products offering an original Mediterranean taste. Our work extends outside the wall of the plant and includes a thoughtful choice of farming lands and constant verification of the raw materials. That's why our products are always fresh and meet rigorous quality standards. Throughout the production process, laboratory tests are used to attest the quality of the final product.

We put on the market only the products we know best, the same we put on our table, and this is the key to our passion to strive for excellence and make our brand the symbol of Italian food quality and tradition.
