//

Italcastagne Srl, established in 2008, is a manufacturing company specialized in the production of ready-to-eat fruits, vegetables and legumes.

By choosing only high-quality ingredients and thanks to a very innovative production process, our company plays a very important role within the retail and foodservice industries all over Europe.

From idea to finished product

Private label has always been the strength of our company, which operates in more than 20 countries, marketing several different products under the most important large-scale retailers' private labels.

Over 40 different private labels created within the last few years for the major retail groups

**Aldi
Lidl
Rewe
Spar
Kaufland
and many more...**

OUR PRODUCTS

- **Soft chestnuts**
- **Sundried tomatoes**
- **Pitted olives**
- **...and many other ready-to-eat products!**

Why flexible packaging

At Italcastagne we chose to pack all our products in handy stand-up pouches, giving the consumers the chance to enjoy our snacks right out of the bag or to use them as ingredients to make delicious dishes.

Flexible packaging is easy to use and way lighter than glass jars or metal cans. Plus, our stand-up pouches offer supreme protection against light, gases and moisture that degrade the food and result in it being spoiled - thus lengthening the product shelf-life and reducing food waste.

We love

Consumers around the world are becoming increasingly aware of the importance of healthy nutrition for the well-being of the whole body and for this reason we produce organic snacks that comply with the standards of organic farming.

Organic products represent around 70% of our overall production volumes.

SOFT CHESTNUTS

Chestnuts are high in potassium, magnesium and fibre, which make them an easy digestible food and an excellent source of energy.

Peeled and cooked, our ready-to-eat chestnuts are a perfect snack or a tasty ingredient to prepare sweet and savory dishes.

Customized recipes upon request

Cinnamon

Salt and pepper

Honey

100g

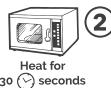

80g

ROASTED CHESTNUTS

Slowly baked in the oven and then packed in a handy pouch which can be put in the microwave still sealed. Microwave on high for about 30 seconds and enjoy the tasty flavour of our chestnuts like they were freshly baked.

Place the bag in the microwave

Heat for 30 seconds

Tear here and enjoy

SMOKED CHESTNUTS

Soft chestnuts have become even more delicious. The sweet and delicate natural flavour of chestnut fruits meets the warm taste of smoke to make our already successful product reach new frontiers in the healthy snacking segment. No preservative, no additives of any sort. Only natural ingredients.

80g

SUNDRIED TOMATOES

Our tomatoes come from Puglia where they are slowly dried in the sun over a few warm days. Sweet, yet salty. Tender and juicy, they are perfect as a side to any meal as an ingredient to make delicious recipes.

Chilli

Oregano

Customized recipes upon request

PITTED OLIVES

Produced in Italy, our olives are low in saturated fats and high in good fats, which make them very important for the well-being of the whole body. Ready-to-serve, all our olives are pitted and liquid free.

Lemon and rosemary

Chilli and oregano

Customized recipes upon request

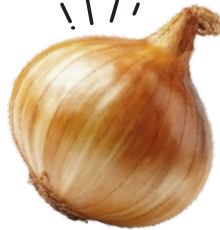

LIQUID
FREE

100g

LEGUMES

Our legumes undergo a specific heating process which make them ready-to-eat and shelf-stable, with no added preservatives nor additives. They make the perfect complement to any meal such as salads and soups, or a tasty and protein-rich ingredient to make plant-based burger patties.

...AND MUCH MORE

Our R&D team is constantly looking for different ingredients and works on creating new products in order to meet even the most demanding expectations of our clients.
